Monitor your home or office area wherever you are !

Keep an eye on your home or office area from any location! This Network (IP) camera is ideal for remote monitoring different spaces, at home (e.g. babyroom, living room) as well as business use (e.g. monitoring a reception or warehouse). By connecting the IP camera to your router or switch, you can access the live images shown by the camera from any PC or notebook via the Internet or local network.
